Subject Activity Report Week Ending 12/20/87

1. Follow-up inspection by Seattle Fire Marshal found several items from previous inspection not completed to his satisfaction. All items were corrected within 48 hours.
2. Pressure from Mutual Materials Company has resulted in a "customer service" change to the pallet return policy. We will issue \$8.00 credit for Lonestar pallets, for which we have not received a deposit.
3. Superior Silica Quarry development continues. Overburden is being stripped. Blasting contractor should move in next week. Processed material may be available in mid January. (JAN 25th 1st production)
4. Durkee cement deliveries suspended due to lack of silo space. Montana false setting type III is being inventoried separately from "new" type III. Silo space is now committed as follows:

14 Montana III
15 Montana III
16 Montana I
17 Durkee I
18 Tilbury II (Durkee I)
19 Ideal I/II
20 Montana II
21 Ideal I/II

5. Sent Nordback, Vinsol and 5" Wilfley pump parts to Montana City.
6. No accidents, Visitors: Mr & Mrs Frank Walters.
